

Title of your paper (font bold size 14 pt)

Author 1* and Author2** (font size 11 pt)

* Affiliation and address of author 1 (font size 11 pt)

** Affiliation and address of author 2 (font size 11 pt)

Email address for correspondence (font size 11 pt)

Abstract (font size 11 pt)

Abstract of the paper with several hundred words should be located here. 10pt Font is recommended for the abstract. If you will submit this manuscript to BME transaction, you should refer to the corresponding guideline provided by the transaction for manuscript preparation and follow that instruction.

1. Introduction (11pt font for section title)

Width of one line is assumed to be about 17cm. Height from the first to the last line in each page is assumed to be about 26cm. Typescripts should be with single line spacing or less using font size 10 pt. However, we do not have strict format for preparation of your manuscript. If you will submit this manuscript to BME transaction, you should refer to the corresponding guideline provided by the transaction, and follow that instruction.

2. Method

Tables and figures can be either inside the text or at the end of the manuscript. However, each of the tables and figures should have its caption.

3. Result

4. Discussion

5. Conclusion

References(font size 11 pt)
